12845 Microwave Leak Detector

Model 12845 Microwave Leak Detector is ideal for detecting microwaves leaking from microwave ovens. Older microwave ovens can emit levels of radiation higher than the safety standard of $5\text{mW}/\text{cm}^2$ regulated by the FDA & EPA. When radiation is detected above the safety level an alarm will sound and an LED will flash. Includes soft case and 9V battery.

Features

- Detects microwaves leaking from microwave ovens
- FDA & EPA have set the safety standard at $5\text{mW}/\text{cm}^2$
- LED will flash and beeper will sound when leak is above the $5\text{mW}/\text{cm}^2$ safety standard
- Zero function
- Backlight
- Auto Power Off
- Low battery indicator
- Includes soft case, manual and battery (9V - 1 pc)

Specifications

Range	0-99 mW/cm^2
Warning Value	$5.0 \text{mW}/\text{cm}^2$
Accuracy	+/-1db
Calibrated at	2450 MHz
Size	6.3" x 2.4" x 1.7" 160mm x 60mm x 42mm
Weight	5.3oz (151g)
Battery	9V (1 pc)
Battery Life	Approx. 1 year
