Providing Offshore Manufacturing Solutions Since 1987

## 12819 Open Jaw Current & Voltage Meter

Model 12819 Open Jaw Current and Voltage Meter is ideal for measuring Voltage, Current, Resistance, Capacitance, Frequency, Duty Cycle, Diode Test, and Continuity Test. The dual LCD displays allows for the Open Jaw Current to be measured simultaneously with the other functions. Includes manual, battery and probes.

### Features

Measures AC/DC Voltage, AC Current, Resistance, Capacitance  
Frequency, Duty Cycle, Diode Test and Continuity Test

Dual LCD display

Measure open jaw current simultaneously with other functions

High input impedance (10 M $\Omega$ )

Low battery indication

Data Hold

Automatic power off

Includes manual, battery, case and probes

### Specifications

Function	Range	Basic Accuracy
Voltage AC	600V	+/- (1.5%+/-2d)
Voltage DC	600V	+/- (3.0%+/-3d)
Current AC	200A	+/- (3.0%+/-3d)
Resistance	40M $\Omega$	+/- (2.0%+/-3d)
Capacitance	200 $\mu$ F	+/- (5.0%+/-5d)
Frequency	9,999MHz	+/- (2.0%+/-4d)
Duty Cycle	0.1%~99.9%	+/- (1.2%+/-2d)
Diode Test	0.3mA typical	+/- (1.0%+/-5d)
Continuity Test	Provide	
Size	8.9" x 2" x 1.6" (226mm x 50.5mm x 39.5mm)	
Weight	8.4oz (238g)
